

PayToGo

Always Connected with one touch

Prices are increasingly inflexible with the rise of companies like Uber, Netflix and Spotify.

Banks do not offer efficient solutions nor are they easier to buy these products

- With PaytoGo our users have access to:
 - All bank transactions;
 - Services of all our partners;
 - Cashback for all purchases made through the application

IN BRAZIL AND IN THE WORLD

CPF and Check Queries

Validation of the registration at the time of payment or for the provision of financial credits is essential to prevent fraud.

- ✓ CPF Basic Consultation
- ✓ Check Consultation
- ✓ Complete CPF Consultation

Details and benefits

Basic Consultation CPF

SCPC provides restrictive information from all over Brazil to help the Merchant evaluate consumers and make credit sales safely.

It allows obtaining relevant information for evaluation and granting of credit. It prevents the action of scammers and falsification of documents.

Only the CPF is necessary to carry out the consultation.

Checking Checks

Check Consulting is a solution to help grant credits to individuals and companies through checks.

Provides reliable information about the check issuer;

Helps prevent scammers and counterfeit checks;

It allows obtaining relevant information for the evaluation and granting of credit;

It also guarantees updated information on this important payment method, so common in retail.

To carry out the consultation, only the CPF / CNPJ of the respondent and the Check data to be consulted are necessary.

Complete Consultation from CPF

It is a complete registration information report on consumers with identification and location data.

Inform the phones linked to the CPF and their respective installation addresses, in addition to the phones reported in the market and the address of the letter of negativity.

Allows you to validate and update the customer registration.

Provides more secure business transactions.

Reduces the risk of fraud.

Only the CPF is necessary to carry out the consultation.

Other SPC queries
